TAPING

The automatic Ampag Boxer YM is a stainless steel strapping machine with a strapping head on the side, which makes the machine resistant to dirt and suitable to function in a humid environment. The strap tension is easy to adjust, making the machine suitable for strapping a wide range of products. This machine is easy to integrate into a fully automatic packaging line and can make up to 35 strappings per minute.

The Ampag Boxer YM is specially designed for the food industry, with the target areas of fish and meat. Because the strap tension (up to 1,300 N.) is easy to vary, this machine can be used for strappings a wide range of products.

Advantages

- Up to 35 strappings per minute
- Strapping head on the side - resistant to dust, sand and dirt
- Stainless steel - for humid working environment
- Fast heating system (25 sec.)
- Simple and easy tape insertion with error correction
- Strap tension continuously adjustable
- Can be integrated into transport lines
- Also available in high-speed version with up to 50 strappings per minute
